Awards

Dean's List award

2022 | Braude College of Engineering

Omri Spitzer

Junior Back-end Software Engineer

Recent Software Engineering graduate with a strong foundation in software development and backend technologies. Experienced in building projects using Python, JavaScript, SQL, and web technologies. Eager to contribute to the development of scalable backend systems and deliver impactful software solutions as a **Back-end Software Engineer**.

Education

2022 – 2026

Bachelor of Software Engineering

Grad student with an average of 89 (GPA 3.3). Completed key courses: Database Systems, Reinforcement Learning, Cybersecurity & Cryptography, Computer Networks, DL for Computer Vision.

Portfolio

2026

[Book](#)

Model-Based Code GenAI (MOSAIC)

Final Degree Project: Developed an AI-driven software generation platform leveraging Google ADK and Gemini API to convert client requirements into production-ready full-stack web applications. Contributed to the design of a role-based agent architecture, custom tool integrations, prompt engineering strategies, workflow orchestration, and automated code generation.

2024 – Present

[BandVoyage](#)

Concert Discovery Website

Architected an event discovery engine using Node.js, orchestrating multi-source data from Ticketmaster and Spotify APIs. Optimized server-side data aggregation and filtering logic to ensure asynchronous client-server interactions.

2025

[Path2Math](#)

[GitHub Link](#)

Interactive Math Learning Website

Collaborated in a team to build an interactive full-stack math learning platform, contributing to real-time multiplayer logic and state synchronization. Helped design dynamic question generation and data models.

Volunteering

2024 – Present

Ayalim Association

Community Involvement & Tutoring

Engaged in community work, while also providing academic tutoring to fellow college students.

2023 – 2024

Perach

Perach Tutoring (Academia)

Tutored fellow students in various subjects. Was selected for the role based on strong academic performances.
